

# Superplus!

## the new Commando 850

Superplus!—The exultant verdict of one independent expert after riding the most exciting development yet from the Norton stable.

Why?

Not just because of its new dynamic 830cc power unit, with its improved longer life components evolved after countless hours of punishing test sessions on road and track, which makes light work of standing quarters in the low twelve second bracket and speeds of two miles a minute or more.

Not just because of the higher gear which it pulls—for the kind of durability that ensures you'll be keeping those miles burning when others have fallen by the wayside.

Not just because you can now do it all on regular gas—especially you globetrotters.

But mainly because of its Norton inheritance of rideability and simplicity, ever the Norton formula for the bikes that lead—try one and start pushing back the frontiers.
